

IMPORTANT MEETING OF BASEBALL FANS—EVERY CITIZEN IN MACLEOD ASKED TO ATTEND THIS MEETING—MACLEOD TO HAVE AN ALL STAR TEAM THIS YEAR

The Macleod baseball fans have never had such a promising outlook as they have this year to get a championship aggregation of players, who will be strictly amateur and all local boys of town and district.

A meeting will be held in the Rest Rooms on Monday evening April 30th at 8:30 p. m. for the purpose of electing officers for the ensuing year and general business connected with schedule, league and games. Every citizen of Macleod should attend this meeting and commence with a worthwhile enthusiasm that will be maintained throughout the season.

Macleod will have a pitcher, third baseman and shortstop playing this year that were the outstanding stars in the South Alberta League in 1927, and these three, together with the pick of the other lads will make a baseball aggregation that will take a whole lot of beating. You cannot expect the players to put any pep into the game unless the fans get behind and boost them strong. Macleod is going ahead, let's put the sports ahead with it. Come to this meeting on Monday night and get off on the right foot. It will be

WAR ON FOREST FIRES

Hon. Charles Stewart, Minister of the Interior, whose department, in co-operation with Provincial Governments, various Forestry Associations and public-spirited citizens, is this week conducting a campaign to focus public attention on the need of prevention of forest fires.

MILK THE GREATEST OF ALL FOODS

The following is an extract from the New Book of Health published by the National Health Service.

"Milk is one of the most complete foods obtainable. It would be perfect were it not for the fact that it is almost totally lacking in iron. It is suitable for persons of all ages. Since it is far richer in lime than other common foods, it is especially valuable for children. The milk fat is frequently the most available source of vitamin A, which children must have in order to grow and develop normally.

"Milk should be kept clean, covered and cool, in order to prevent the bacteria in it from developing and causing it to spoil. Much of the milk that is sold throughout the country is dirty and unsanitary. It sometimes comes from diseased cows which may have the appearance of health. It is generally safer to take milk that has been milked from a herd than from one cow, unless you know that the individual cow is given very good attention to its care and food. Tuberculosis is very common among dairy herds, and we are now beginning to understand that this disease is prevalent because of the intensive feeding of cattle on refined commercial feeds. This is done to make them give greater amounts of milk."

"Since milk produced under such conditions has been found to contain many impurities, it is now becoming the practice to heat milk at a temperature sufficient to destroy germs, and this practice is called 'pasteurizing' milk. However, if milk comes from cows that are known to be free from disease and is handled in a perfectly sanitary manner, it is better not pasteurized than pasteurized."

"Milk, being a complete food, should never be eaten with meat, fish or any other protein food. Those who use milk in any quantity will find it beneficial only if used as babies and children use it, as a meal all by itself or as an addition to grains in any form, to make the entire dish more palatable."

"Soups, beverages and desserts made chiefly of milk are appetizing ways of serving it, especially for persons who do not like to drink plain milk."—Adv.

CAPITAL GOSSIP AND PROVINCIAL NEWS**Prominent Speakers to be Heard at Co-operative Institute**

Alberta farmers who attend the Institute of Co-operation to be held either at Edmonton or Olds during the last week of June will have the opportunity of hearing addresses from a number of speakers who are acknowledged to be authorities on various branches of co-operation in Canada and the United States. The committee in charge of arrangements for the Institute which is being organized by the Department of Agriculture with a portion of Alberta's share of the Wheat Board Surplus Fund announces that acceptances have been received from the following co-operative experts who have been invited to address the gathering: Prof. C. R. Fay of the Department of Economics, University of Toronto; C. G. Randall, agricultural economist for the bureau of co-operative marketing, U. S. Department of Agriculture; John Brandt, president of the Lakes Creamery, Litchfield, Minn., the largest co-operative creamery organization on the continent; Prof. H. G. Erdman of the Department of Economics, University of California; R. W. Murchie head of the Department of Rural Economics, Manitoba Agricultural College; Robin Hood, editor of the Co-operative Farmer, Irving Journal, Memphis, Tenn.; and W. M. Drummond who is returning to Alberta from Harvard University.

In addition to the above speakers a number of prominent men in the co-operative movement in western Canada will be heard. The program being arranged for the Institute will allow these in attendance to pay special attention to any of the phases of co-operation in which they are interested.

Liquor Profits in Ontario and Alberta

In connection with statements which appeared in the press regarding liquor profits in Ontario and Alberta and quoting the former as making 15 per cent profit on sales and the latter as making 41 per cent, the following statement is issued by R. J. Dinning, Liquor Commissioner of Alberta.

It may be pointed out that the Ontario figures included sales of beer totalling \$5,367,416, but the Alberta figures omitted the sales of beer in this province, although all the profits on beer were included.

In five months Ontario is reported to have sold:

Wine and Spirits \$11,166,243
Beer and Stout \$5,367,416
\$17,533,659

on which a profit of \$2,533,659 (five months) was made on actual sales of approximately 15 per cent.

In twelve months in Alberta the following sales were made:

Liquor and Wines \$4,552,349
Beer sold through stores 306,500
Beer sold through breweries
houses under Government supervision, approximately \$4,500,000
\$9,052,349

on which a profit of \$2,038,622 was made (including gallowage tax and license fees of \$565,005) or approximately 22 per cent on the total sales, 41 per cent as suggested in the daily press.

From the viewpoint of the Liquor Board, the system of handling beer in Ontario differs very little from that of Alberta in so far as the cost of operation and supervision is concerned, thus in comparing the net profits it is only fair to include beer sales in both Provinces.

Exports
An increase of \$40,768,160 in the value of crop and livestock products actually exported from Alberta during the crop year 1927-28 as compared with the year 1926-27 is shown in a publication recently issued by the W. Sanford Evans Statistical Service of Winnipeg. The total value of live grain and livestock shipped from the province in the crop year 1927-28 is placed at \$150,980,167 as compared with \$110,212,007 in the previous year.

Increased exports are shown from each of the eight crop districts into which Alberta has been divided for the purposes of the report. Figures for the "Parkland" district show total returns in 1927-28 of \$233,218,016 as compared with \$227,414,526 in 1926-27, an increase of \$5,803,492, while Manitoba shows a decline of \$24,019,513, the respective figures being \$46,684,315 in 1927-28 and \$70,703,828 in 1926-27.

Alberta Streams Being Stocked With Game Fish
A total of 1,624,475 potential game fish were distributed in Alberta fishing waters in 1927, according to the annual report of the Dominion Fisheries branch. These included eyed eels, fry and fingerlings of Loch Leven, Cutthroat and Rainbow trout. In addition, nearly three million whitefish eggs were placed in commercial fishing waters in order to maintain the supply of fish for this growing industry in the province.

New Text in Civics
The Department of Education has just issued a manual in Civics intended for use in the High School grades. This little booklet of approximately seventy-five pages contains material with which every citizen should be familiar. It was written by Professor Burt of the University of Alberta, admittedly an authority on this subject. While the treatment follows in a general way the topics included in the civics section of the third year history course, yet nothing has been included that is not of genuine interest to anyone who desires a brief statement, not only of our present practice in government, but the foundations on which it rests.

This is the first Canadian publication dealing with civics on the high

school level and it will without doubt make a suitable text for discussion clubs, U. F. A., U. F. W. A., and Women's Institute meetings, as well as a valuable handbook for private reading. It is published by the School Book Branch of the Department of Education and may be had direct from this Branch for 30c postpaid, or from local dealers.**Grain Cleaning Plant Had Busy Season**

Approximately 40,000 bushels of registered Marquis wheat and Victory and Banner oats were cleaned, graded, registered and marketed by the Provincial Cleaning and Grading Plant at Edmonton during the past winter, states Field Crops Commissioner W. J. Stephen. In addition a considerable quantity of high grade registered and Number 1 seed has been sold on commission for farmers whose grain was not accepted at the plant, and a further 25,000 bushels of registered seed could have been disposed of if it had been available.

The fact that fully 95 per cent. of the grain passing through the plant was sold to Alberta farmers indicates a recognition of the value of seed grain which is clean, of good quality and true to variety.

Calgary To Have Improved Tourist Camp

The Calgary Automobile Club is planning to equip and operate the most modern automobile tourist camp in western Canada this summer, it is announced by F. R. Branson, president of the Club. A splendid site is being selected and the camp will be equipped with light, gas, water, shower baths, cooking, car shelters and other conveniences for the accommodation of motor tourists.

Legume Cultures Ready For Distribution

Nitro cultures for the inoculation of the various legume crops are again being distributed this season from the Vermilion School of Agriculture. Over 4,000 bottles of these cultures were sent out last year to farmers in various parts of the province. The crops for which cultures have been prepared include: mammoth red, crimson, white, sweet, alfalfa and Egyptian clovers, alfalfa, vetches, peas, perennial peas, sweet peas, garden beans, broad beans and scarlet runner beans. The cultures are prepared at a cost of 35 cents per bottle and will be sent post paid. Farmers requiring treatment of this kind for their legume crops are advised to order early to ensure delivery.

Arbor Day May 7th

Many school grounds, parks, lawns and boulevards in the province will be improved by the planting of trees on Monday, May 7th, which has been named by the Lieutenant Governor in Council as Arbor Day in Alberta.

It takes a saw log half a century to grow. Better protect the trees we have until mature, than start new trees from seedlings after the present remaining forests have been destroyed.**THE EMPRESS THEATRE — CURRENT ATTRACTIONS****KINDRED TASTES LINK TWO FAMOUS SCREEN COMEDY MEN, WALLACE BEERY AND RAYMOND HATTON**

Partners in comedy and kinsmen in tastes Wallace Beery and Raymond Hatton are as like as two flappers in a street car and yet as different as red is from blue.

The pair are real partners in Paramount's new comedy of the underworld, "Partners in Crime," which will show at the Empress Theatre next Monday and Tuesday.

It is in their physical proportions that the members of Paramount's famous comedy team differ so widely. In most other respects nature cast them in the same mold.

Beery is six feet one inch in height. Hatton stretches to five feet five inches.

Beery weighs 235 pounds. When he isn't working too hard, Hatton tips the beam just an even one hundred pounds under that figure.

Two "Great" Hunters
Beery is a great hunter and next to hunting he likes fishing. Hatton firmly believes that he is a greater hunter than Robin Hood ever was in his best days and that, as a fisherman, he ranks second to none, not even to Beery.

Beery likes to spend all of his time between pictures roughing it in the mountains. Hatton has a hunting lodge in the California Sierras, that never suffers loneliness.

When he was 16 years old, Beery left home to join a circus and two years later went on the stage.

At the age of 15 Hatton left home to join a theatrical company.

Beery was successful in stage drama and as a musical comedy star. Hatton toured for years with a theatrical stock company and was highly successful on the stage.

From Stage to Screen
Beery left the spoken drama to join motion pictures when that industry was in its infancy. He first played in comedies. Hatton cast in his lot with the screen in the days when pictures were still something of an experiment and his first roles were in comedies.

Beery won a great reputation through his villain characterizations and became one of the greatest heavies among the ranks of character actors. Hatton's fame as a character actor also grew steadily.

He, Beery, became known as one of the outstanding villains of the screen.

Incidentally the blending of their long experience both as heavies and comedians is standing Beery and Hatton in good stead in their latest picture "Partners in Crime," as this vehicle is a melodramatic comedy, picturing life in the underworld.

It was after they had both come under the Paramount banner that these great actors, so different and yet so similar, were teamed together to co-star in a series of pictures.

Beery was born on a farm in western Missouri. Hatton was born in Red Oak, Iowa. Fate, it seems, brought these two fellows to join them in the business of providing laughs and wholesome entertainment for humanity.

TRIBUTE PAID "SPEEDY" BY MINISTERS—HAROLD LLOYD HONORED BECAUSE OF HIS CLEAN COMEDIES PRESENTED

While Harold Lloyd was filming "Speedy," his latest Paramount release which is showing at the Empress Theatre, and which is tickling the ribs of the many theatre patrons, two ministers paid a visit to the comedian's studio, or rather, the huge set built in Westwood for the production.

"Before I leave, Mr. Lloyd," said one of them, after he had watched the star for over a half hour cavorting before the camera, "I want to pay you just one tribute. That is, whenever a Harold Lloyd picture comes to town, mother and our two kiddies are always the first in line to put our money through the box office window. There is never a doubt in my mind that your pictures will contain only the cleanest, most wholesome entertainment, and while I have seen a score of your works, I never have misplaced my confidence. It's a great work, son, and I only hope you keep it up."

This statement echoes the senti-

ment in which Lloyd is held over the entire country. Lloyd's early training was proof enough to him that one does not have to violate the rules of decency to be funny. His works have been a shining example of that belief. Never has the celebrated comedian overstepped or even approached the line of propriety. That's one reason why he draws more persons into the box office of the world than any other player in motion pictures.

"Speedy" is another of the high class brand for which Lloyd is famed. It has back of it the big idea that will always be found in a Lloyd comedy—unobtrusively, to be sure, but none the less convincing. In his latest work, he demonstrates the power of confidence over all obstacles.

MARY ASTOR AND LLOYD HUGHES CO-STAR IN SENSATIONAL DRAMA OF RECKLESS MODERN SET

"Sailors' Wives," the highly dramatic story by Warner Fabian in its film version, will be seen at the Empress Theatre next Wednesday and Thursday. It is a First National picture.

Mary Astor and Lloyd Hughes in the featured leading roles, this First National picture offers a remarkably fine and unconventional treatment of a certain phase of social life, and Director Joseph Henabery has permitted no opportunity to escape him that would enhance the entertainment value of the film.

The title has an implication that in one way the sea is concerned, or at least those who live on the briny deep, leaving their better halves at home. However, this is surely symbolic, and the picture deals wholly with society circles in our own land.

Harold Lloyd's titillation table is as follows:

Four smiles—one titter
Two titters—one giggle
Five giggles—one equine giggle (Horse laugh)
Two equines—one hyena laugh
Three hyenas—one snort
Three snorts—one howl
Two howls—one scream
Twelve screams—hysteria
Two hysterics—Knock 'em dead.

At least one and maybe two hysterics are due for patrons attending the Empress Theatre when they will see Harold Lloyd in "Speedy," Thursday, Friday and Saturday this week.

Correct this sentence: "You and I are so careful," said Bill's wife to Jim, "that nobody suspects us of being in love with one another."

Save the Forests—It pays.

ST. ANDREW'S PRESBYTERIAN CHURCH
Sunday, April 29th:
The Pastor will preach at both services.
7:30 p. m.—The Oddfellows and Rebekahs will attend for their annual church service.
Sunday School and Bible Class at close of morning service.
Ladies Aid, Monday at 3 p. m.
C. G. I. T. Tuesday at 7:30 p. m.
Prayer meeting Wednesday at 8 p. m.
Chair practice, Friday 7 and 8 p. m.
Rev. A. C. Wishart, Minister.

COMING EVENTS FORESHADOWED
IMPORTANT BASEBALL MEETING

A meeting of the Macleod Baseball Club will be held at the Rest Room, Macleod, on Monday evening, April 30th, at 8:30 p. m.

Business—Election of officers and other important business.
Everyone attend this meeting.
D. W. DAVIS, President.

RATHWELL NEWS
There will be service in The Rathwell School House next Sunday, April 29th, time 11 a. m. All are welcome.
Preacher, F. Crowson.

The fourth anniversary dance of the Scarlett and Gold Club will be held at the Hudson's Bay Hall on Friday, May 11th. Admission: Ladies 9 p. m., lunch served at midnight—Good music.

A meeting of all interested in the preservation of Game and Fish is called for Friday, April 27, 1928 at 8 p. m. in the rest room, Macleod.

NEW CANDY INDUSTRY IN MACLEOD
Another sign of Macleod's progressiveness is the commencing of a candy making industry here. The new business is being operated by Mrs. C. J. Dillingham manager of Dilly's Cafe on 2nd Avenue. Mrs. Dillingham, who has had many years experience in candy making, realized that there was a good opening in southern Alberta for a home-made candy industry and a few weeks ago commenced making candy for retail sale in her restaurant. It was not long before the fame of these pure home-made sweetmeats spread over the town and district, and the storekeepers in Macleod were asked by their customers for these goods, hence the maker was asked to furnish the stores with this commodity. Orders have already been received by Mrs. Dillingham for candies from Grandin, Pincher Creek and other outside points. The candies which are of a varied description include toffee and fudge bars, bon-bons, nut fudge candies, old fashioned butter Scotch, marshmallows and several assortments of Turkish delight, the last named being a sweetmeat of particular excellence that has proven a big seller and an ever lasting favorite with everyone of the sweet tooth inclination. Mrs. Dillingham will enlarge her candy making establishment, and has already ordered improvements and equipment so as to be able to handle her ever increasing demand for candies.

ROVERS SCORE RIGHT AFTER START AND ARE COMPLETE MASTERS
Blackburn Rovers won the English Football association cup, emblematic of the soccer championship of England, last Saturday when they defeated Huddersfield Town in the final match of the competition by the goals to one.

Blackburn scored two goals in the first half.
Each team scored a goal in the second half.
The final competition developed a sensation in the first minute when Roscamp, of Blackburn Rovers, got through Huddersfield Town defense and scored.

McLean of Blackburn, scored after 23 minutes of play.
Jackson scored for Huddersfield in the tenth minute of the second half.
Roscamp scored a soft goal for Rovers near the finish.

The teams lined up as follows:
Blackburn — Crawford, Hutton, Jones, Heskell, Rankin, Campbell, Thornwell, Pruddefoot, Roscamp, McLean, Rigby.
Huddersfield — Mercer, Goodall, Barkas, Redfern, Wilson, Steele, Jackson, Kelly, Brown, Stephenson, Smith.

93,000 See Game
The great grandstands were filled to capacity with a crowd estimated at 93,000 when the teams came out for the match. Among many distinguished people present were King George and Queen Mary and the Duke and Duchess of York. The royal party were given an ovation on entering their box.

Before the match the crowd passed away the time in community singing.
The weather was well nigh perfect at the commencement of the struggle, but rain came on in the second half. The ground was stiff enough to insure a test of stamina as well as skill.

Both teams were received with tremendous applause as they appeared. They were presented individually to the king and the Duke of York.

FOUGHT TO GROW MORE ALFALFA
"There need be no hesitation in recommending alfalfa. It has a place on practically every farm."
This is the statement of J. A. Carroll of Brompton, Ont., a man whose home is in the centre of probably "Canada's most important alfalfa section and who was largely responsible for the alfalfa campaign put on by the Ontario government a few years ago. For hay and build-alfalfa has no peers.

"That is all very well if the thing will grow, but what about a year ago when so much was killed out?" Mr. Carroll was asked. The best of crops will be hit once in a while, replied Mr. Carroll, "and alfalfa, where taken care of properly, is not as liable to fail as most others. In fact the killing out was exaggerated last season in Ontario, for, as a matter of fact, there was more alfalfa hay put out that season than ever before. It was a peculiar combination of weather conditions in the fall and spring which did the damage, a combination, incidentally that we are not likely to see repeated in 20 years."

If alfalfa were substituted for the ordinary mixed and half wild hay which is found on the ordinary farm the crop would be nearly doubled, according to Mr. Carroll. The ordinary hay averages about one and a half tons per acre, whereas alfalfa, as estimated by the Dominion bureau of statistics, runs almost three, and in Southern Ontario and in the irrigated sections of Alberta, five ton crops are common. It should be sown fairly thick about 12 to 15 pounds to the acre and only clean, graded and hardy seed should be used. Where not grown previously and well established in the soil, the use of a culture, which is mixed with the seed just previous to sowing is advised. The culture only costs a few cents per bushel and assures a catch. Even in soil where the alfalfa acreage per capita is higher than anywhere else in Canada, more cultures are being used each season, the growers there considering them cheap insurance.

Alfalfa will improve the soil. Being a legume it collects free nitrogen in the air and stores it up in the roots, so that when the crop is plowed under this fertilizer is liberated in the soil which leaves the field richer than before the crop was planted. In other words alfalfa actually does give you something for nothing, you get a good crop of hay and the soil receives a crop of fertility. The low cost of alfalfa makes the richer the soil becomes. It improves the soil mechanically. Alfalfa has a long tap root which will reach down six feet or more into the sub-soil; this brings up lime, so necessary to alfalfa, and other minerals and loosens up any soil, even heavy clay, by mixing sub-top-soil and by filling the earth with humus. It also improves the soil because it will smother out practically any annual weeds besides being the one sure cure for sow thistle.

There are only two or three things to remember with this crop. First of all it is important to secure clean, hardy seed, and it is also best to use an alfalfa culture. If the soil is very deficient in lime, an application of this may be advisable. It is well to avoid low, flat fields which flood in the spring, as alfalfa prefers a well drained piece of land and will do well even on steep hill sides. This crop has been patented, especially in the dairy districts, but authorities have never given full approval. It is more easily killed out by pasturing than is sweet clover, which is also preferable for making silage. If one does turn stock on alfalfa, the same should be taken off early in the fall so that the crop may have a chance to build up a protecting top to take it through the winter. Alfalfa is a perennial and can be left down all

PUBLIC SCHOOL HONOR ROLL MARCH

Grade I—1. Maira Law, 2. Frankie Wood, 3. Lillian Clarkson, 4. Eileen Kossling, 5. Gordon Grier, 6. George Pinder.

Grade II—1. Molly Crowe, 2. Florence Bremner, 3. Marjorie Lantinga, 4. Tommy Ripley, 5. Dorothy Fokins, 6. Ilo Stewart.

Grade III, Jr.—1. Alberta Ferguson, 2. Barbara Jones, 3. Annie Lantinga, 4. George Baker.

Grade III, Sr.—1. Doris Russell, 2. Beatrice Burrows, 3. Gladys Clarkson, 4. Earl Dixon, 5. Margaret Moreau, 6. Kurt Froese.

Grade VIII—1. Margaret Hillier, 2. Walter Greensk, 3. Bob Toogood, 4. Helen McNab, 5. David Cooney, 6. Jack McDonald.

most indefinitely. There are many fields in Peel and York counties of Ontario which have been giving good crops continuously for 30 years. There is a growing demand for alfalfa hay in the larger city markets where its high food value is beginning to be appreciated. Where the fields are kept free of weeds and other crops and the seed used is of a good variety, the sale of seed will prove very profitable.

NINE OLD COUNTRY FAMILIES FOR FARMS AVAILABLE WED.
Farmers who are seeking British families for placement on their farms will be pleased to learn that nine families were available on Wednesday of this week. The Canadian Pacific Railway will have nine families, each having two or three children, available for the district. They will be placed by O. T. Lathrop, Lethbridge representative.

WILL SPEAK AT MACLEOD
On Friday, April 27th one of the outstanding women of the Dominion, Mrs. Gordon Wright, president of the Women's Christian Temperance Union, will be in Macleod. Mrs. Wright will speak in the Parish Hall at 4 p. m. to women. In the evening, in the same hall, there will be held a general meeting at which Mrs. Wright will give an address, after which refreshments will be served and a social hour spent, when an opportunity will be given to meet Mrs. Wright.

A cordial invitation is extended to the people of Macleod to be present. It is hoped that a number will avail themselves of this opportunity to hear a speaker who is so well known from the Atlantic to the Pacific.

EMPRESS THEATRE PROGRAMME
FRIDAY—SATURDAY—
April 27th and 28th:
PARAMOUNT COMEDY SPECIAL HAROLD LLOYD IN "SPEEDY"

A hoarse laugh about a horse car. Another smile about in Harold's career.

H. C. WITMER'S COSMOPOLITAN MAGAZINE SERIES—
"THE BEAUTY PARLOR" with AL COOKE and KIT GUARD.

ALSO COMEDY—
"TALES OF A TRAVELLER"

ONE SHOW ONLY—
Time Schedule—
Comedy 8 o'clock.
"Beauty Parlor" 8:15.
"Speedy" 8:45.

THE MACLEOD TIMES AND MACLEOD WEEKLY NEWS

John Dillingham, Publisher

A weekly newspaper printed and published at Macleod, Alberta every Thursday. (Independent in Politics)

Subscription price (in advance) per year \$2.00
If not paid in advance \$2.50
Foreign \$2.50

WEEKLY CIRCULATION OF 1,400
Circulated in a prosperous town of 1,700 population and in adjacent prosperous farming district.

FLYING AT ITS BEST AND WORST

The exploit of those two German and one Irish flyers who have just completed the hitherto unaccomplished feat of crossing the Atlantic from east to west, adds another item to the magnificent aviation record of the past twelve months.

Outside of their effect on the flyers themselves and the flyers' families, these flights are splendid if they succeed and exceedingly unfortunate if they fail.

For, no matter how gallant and expert has been the attempt, failure sets up a strong prejudice against flying in the public mind—a prejudice that has no real foundation in facts.

In spite of the losses that have occurred through these spectacular

Is It Safe To Use Pasteurized Milk?

Save the Babies by All Means, but Give Them Nature's Products So They Can Thrive.

R. L. Alsaker, M.D., the noted health specialist, quotes the following in his book of health:—

"Pasteurized or boiled milk is partly devitalized. Yet the health departments of large cities frequently insist on pasteurizing the milk. In this way we get filthy milk containing many dead bacteria; the heating temporarily prevents further decay. Such milk is especially injurious to the young. In babies it tends to produce rickets, malnutrition and death. True filthy raw milk is injurious too, but the correction is to keep the milk clean and uncooked and thus retain the health giving vitamins and natural salt."

We have the latest up-to-date De Laval milking equipment, thereby insuring cleanliness, as it is not touched by human hands. Our milk and cream is unsurpassed—We defy competition.

HAMMERSLEY'S DAIRY

"The Home of Pure Milk" Macleod

Phone 17 "Save The Babies"

flights, flying has become comparatively safe. In support of that fact, the United States figures for last year are impressive.

In United States, 164 aviators were killed last year. But of those 164 deaths, 131 took place in unlicensed airplanes. Only one air mail pilot lost his life—and the air mail flew a total of 1,413,381 miles.

If the plane is standard, the pilot capable and the task reasonable, flying is as safe as motoring.

WHEN FETTERS GALL

A watchman on a steamship pier in Philadelphia says he can tell when spring has come without looking at the calendar, the thermometer or even the weather.

As soon as spring approaches, this watchman finds that a horde of boys besets his pier. They try to sneak past him to get aboard the steamers that dock there; caught, they admit that the urge to travel is on them, and talk of shipping as seamen for Rio, Cape Town or Ternate. When spring passes they bother him no more, and in the fall and winter he does not see them. But next spring they swarm about as before.

It would be interesting to consider the origin of this yearning for movement that arrives with the spring. All of us are subject to it. When the wind gets mild and caressing and the dawn is an early tonic,

we want to wander. It is not without significance that May 1 is the great moving day in the city. Unable to venture to distant lands, the citizen compromises by moving into the next block but one. The spring beguiles him into thinking that it will be pleasanter there.

All of this has a meaning. The winds of April blow the mists of custom from our eyes and we can see better. We discover that we have been shamefully cheated of our heritage. We were born to lofty chances and broad fields; yet behold! Here we are, somehow, cooped up in shops and offices, or chained to niggardly farms, spending our lives in prosaic toiling, getting and spending, and never once having so much as a glimpse of that rich, unfettered life of which we know we are capable.

So, naturally enough, we want to go away. Below the equator, surely, the bonds of this workaday world will not be so tight. We have been defrauded of our patrimony here at home; perhaps if we venture to Siam or Sootra we can get justice.

Well, we can't go, and that ends it. But at least we know. No one can tell us, in the spring, that the chief end of existence is to store up dollars and mind the catch-penny maxims of thrifty starvelings. We are sons of eternity, and life is everlasting, free and noble. Let the fetters of circumstance hold us ever so tightly, that knowledge is ours. We know our rights, even if we can't get them.

The people of Canada can hardly realize how fast fire and axe have eaten into Canada's forest resources during the present generation. Forestry experts state that of what was a primeval forest no farther back than 1810, practically untouched by the axe, little more than one-quarter now remains.

In Eastern Canada comparatively little timber of really prime sawmill quality is left and it is stated that 70% of such timber in Canada now stands in British Columbia. In this province also the work of devastation and waste is going on at a much faster ratio than the annual growth.

A great area of forest land still remains to the north of the populated parts of most of the provinces, but this forest consists largely of spruce and other woods required for the great pulp and paper industry. This forest of recent years has come to feel full force of the United States demand for newspaper paper. It provides a very big factor in our list of profitable exports, but forestry point-out we are cutting and burning at a rate that will exhaust our accessible timber supplies in twenty-five years.

These experts say that with proper regulation as to cutting, reforestation and protection from fire, it is possible for Canada to have her forest industries in perpetuity. Fire has always taken greater toll than the axe. Fire prevention, the forestry men say, is the only salvation.

Forest fire fighting methods are being improved. The aeroplane has been called into requisition to locate fires at their first outbreak and thus prevent fire spreading beyond control. But experience has proved that Canada's cost that fire fighting is not nearly as simple as fire prevention. Every single individual whose business or pleasure takes him or her into the woods, must, while there, be impressed with one idea above all others and that is to prevent forest fire.

Our woodworking industries depend on the Forests.

ST. ANDREWS, MACLEOD, HELD
SPECIAL SERVICE FOR
SUNDAY SCHOOL

At St. Andrew's Presbyterian church, Macleod, Sunday morning, a special service was held for children of the Sunday School. There was a large turn-out of scholars and parents, the children more than filled the centre of the church. The minister, the Rev. A. C. Wishart, conducted the service. The junior choir with Miss Blossom Lyons at the organ, rendered special hymns and an appropriate anthem, "Brighten the Corner Where You Are." Mr. Wishart first gave a short talk to the primary classes from the words, "Hosannah to the Son of David." He then spoke to the older scholars and gave a most interesting and instructive address on the text, "Behold the Bush Burned With Fire and the Bush was Not Consumed." To illustrate the text and impress it on the minds of the children, Mr. Wishart had a large card with a drawing of the burning bush, with the motto around it, "Nec Tamen Consumebatur." He told that this was the emblem of the Presbyterian church, not only in Canada, but throughout the civilized world, and was adopted by the Presbyterians over 400 years ago. The Presbyterian church had been like the emblem, it had stood the fires of great persecutions all down through the ages, and yet was not consumed, but has been purified by the fires of persecution, until today she stands as one of the largest and brightest lights in the religious life of the world. Mr. Wishart told the children many interesting facts in the history of the church, its growth and influence down to the present day. Among other things, he said there had been more martyrs suffered death for their faith in the Presbyterian church than any other denomination.

MACLEOD BENEFIT DANCE A
SUCCESS

The benefit dance given by the hockey club of Macleod last Friday night in the Oddfellows hall was a great success. The dance was given for Wallace Hamilton, star defenseman of the Macleod hockey team, who was unfortunate in having his ankle broken in a game with the Nanton team on the Nanton rink sometime in February. On account of the accident, Wallace has not been able to follow his usual occupation with the P. Burns Company until about a week or ten days ago.

The club got up the dance to help cover some of the expenses incurred, and the result was most gratifying.

Why
Gum-Dipped Tires
Cost Less "Per Mile"

The demand from car owners for Firestone Gum-Dipped Tires has given Firestone Dealers a large increase in volume that enables them to sell these tires to you at the lowest prices in the history of the industry.

The Firestone Balloon Tread, scientifically designed three years ago, and unchanged today has the wear-resisting qualities that give thousands of extra miles.

This tread must be placed on a carcass that has the qualifications to withstand terrific flexing. The Firestone carcass is made of cords dipped in a rubber solution which not only saturates and insulates every fibre of every cord, but unifies sidewalls with carcass, eliminating any possibility of separation under the extreme flexing of low-pressure tires.

The Firestone Dealer in your locality will gladly explain the Gum-Dipping process, the scientifically designed tire tread, and other advantages that only Gum-Dipped Tires can give. See him today.

Macleod Motors

Macleod Alberta

Practically everything connected with the dance was donated, the Oddfellows Lodge gave the hall free, the Premier orchestra of five pieces who supplied the music gave their services, the refreshments were donated by the lady followers of the "Hockey Boys," who showed their appreciation of "Hammer's" services during the hockey season, by serving up a supper that has not been surpassed at any dance in Macleod. There were over 150 present and a number of tickets were sold to others not present. Everyone had a most enjoyable time, the music was bright and lively, and the floor was in splendid shape.

FROM THE MAN ABOUT TOWN

Three car collisions on Sunday, no one to blame, all in the right-moral, don't drive auto's on the Sabbath.

Why ask children to keep off the golf course on account of the fire? Ladies also carry matches.

The hole on 20th Street between 1st and 2nd Avenues, was the cause of many sore heads. Lots of people never knew that the tops of closed cars were so hard until they experienced the contact thereof.

"Spring has come." Watch the painters and gardeners around town. Soon the poets will be blossoming forth.

A well known lady from Olsen Creek was wearing the latest Parisian creation in millinery she received direct from the Bon Marche, Paris. She is only sorry she can wear it the once, as the next time she comes in from the hills, fashions will be changed.

POEM

When Noah sailed the waters blue
He had his troubles, same as you.
For forty days he drove the Ark
Before he found a place to park.

The cigarette stub has laid low
Many a noble tree.

MEN'S BROTHERHOOD AT MAC-
LEOD ATTENDS CHURCH
SERVICE IN A BODY

A service of unusual interest was held in the Macleod United Church on Sunday evening, when the Men's Brotherhood Organisation attended the service in a body and occupied the seats in the centre of the church. The minister the Rev. W. H. Irwin, spoke in affectionate terms of the had afforded during the three years fellowships which the brotherhood of its successful operation. He admitted, humorously, to having a selfish motive in the energy he had put forth in the brotherhood's behalf. His profession, he said, brought one into contact with so much that was serious in life, that he required a weekly tonic of fun with real red-blooded men, this the brotherhood had afforded him.

In his sermon, Mr. Irwin dealt with the two great fundamental functions of life, nutrition and reproduction. The nutrition of intelligent beings was more than mere eating, it made eating a sacrament. Jesus had put a feast at the very foundation of His religion, and had said "Do this as oft as ye will, in remembrance of Me." It was nutrition of the soul as well as for the body. As a supper club had been organized to the organization a source of good fellowship in which lasting friendships were inevitable. Reproduction is not only the giving of life but the giving of abundant life. We only give life as we raise the standard of living through a greater measure of happiness, education and freedom of access to the necessities of life. The greatest of all fellowships was the fellowship in which the Master of us all, bound twelve men, the fellowship of service in which a world was to be redeemed.

The speaker spoke with appreciation of the large number of men who had contributed to the programs of the brotherhood; these included ministers, politicians and men of all professions and callings of life. Many had travelled considerable distances and sacrificed valuable time in coming, but who, asked the preacher, who loves speaking and has a message, would not travel across a continent to address a crowd of well fed and contented men. The choir under the direction of Miss Erika Olander, rendered Edmund Turner's "Son of My Soul."

PASS SPORTSMEN ASSIST
RUNNER

Great interest is being taken in the long-distance marathon race which is now in progress in the States by the sportsmen of Bellevue, Blairmore and the Pass generally. This is largely on account of the fact that George Liebergall, a Bellevue runner, is still among the contestants, and is grinding out from 35 to 45 miles a day, and at the same time giving world-wide publicity to the Crow's Nest Pass.

To show their appreciation in a tangible manner, the Bellevue sportsmen opened up a subscription list, and the sum raised has now risen to a respectable total. Not to be outdone, a Blairmore subscription list was started, with a donation of \$25 from the town council, and is going strong.

When these amounts reach George he should at least be able to buy shoes to replace those which he is wearing out in his self-imposed task.

TENNIS NOTES

Leonard Steadman is putting the finishing touches on the courts, just a day or two more and we are off. The 1928 tennis balls have arrived and can be obtained from the secretary. Slazenger is again the official tournament ball, although Wright and Ditson, Spaulding and others are approved by the C. L. T. A.

All fees are due on or before May 7th.

The Club is expecting to visit Pincher, Claresholm, Waterton Lakes and other tennis clubs for friendly games during the season.

For a rural community center game, there is nothing more easily established and maintained than a tennis club. In most places the land is so level that scarcely any work is necessary and no game affords players more fun and benefit, and it is a game the older folks can enjoy watching. We believe Pearce leads the way in this District in establishing a tennis court for the young people; having established one last year. Many of these rural courts are being established by the school districts in the eastern provinces and proving a very valuable asset toward giving the farm young folk something in their own community to entertain and train them so that they are quite at home when they visit their town or city friends. No better way of maintaining pleasant relations between town and country.

The Macleod Tennis Club will be very glad at any time to advise or assist any district wishing to start a tennis club.

MARY'S LITTLE COLD

Mary had a little cold
That started in her head,
And everywhere that Mary went
That cold was sure to spread.

It followed her to school one day,
(There wasn't any rule)
It made the children cough and sneeze

To have the cold in school.
The teacher tried to drive it out;
She tried hard, but—"kerchoo!"
It didn't do a bit of good,
For teacher caught it too.

Sombers—be careful in the woods.

J. T. Sheridan of Winnipeg was a business visitor to Macleod.

Mr. and Mrs. R. Lane of Olsen Creek were visitors to Macleod on Saturday last.

J. Dillingham and T. Dixon were visitors to Calgary over the week-end.

Mr. and Mrs. Albert Ginter of St. Lina, Alberta, are visitors with relatives in Macleod.

Alvan Young of Macleod was in Calgary last week attending the Shriner's Ball in that city.

Miss Mabel Nelson of Chesholm was a visitor with Miss Kathleen Barr over the week-end.

The Royal Bank of Canada has just installed another nest of Safety Deposit Boxes.

James Turner of the U. G. G. Construction department is a visitor to Macleod this week.

Coroner McNichol of Lethbridge was a business visitor to Macleod on Wednesday of this week.

The Rebekah card party and dance held on Tuesday evening proved a great success. There were fourteen tables of whist and at the conclusion of the whist drive a dainty lunch was served, after which dancing was enjoyed for several hours with excellent music furnished by the Brenner Orchestra.

Miss M. Frank who has been practicing teaching at Howe School, left for her home in Cardston prior to returning to Calgary Normal.

The first real warm day we have had for some time, was taken advantage of on Sunday by the local golfers who flocked to the course and enjoyed a round or two under ideal climatic conditions.

T. J. Moore of Calgary, well known old timer in the Macleod district and former noted star hockey player of the Pincher Creek invincibles, was a visitor to Macleod this week.

On Monday afternoon the members of the golf club in Macleod turned out en masse to fight a prairie fire on the course. The conflagration was not subdued without serious damage to the fairway, although the long grasses and weeds, which always had a magnetic influence over noxious golf balls, were also destroyed. On account of this blaze children are warned to keep away from the golf course, also smokers are asked to be careful.

Mrs. F. J. Cutler of Macleod left for Nelson B. C. on Sunday to take over the conductorship of the National Opera Company during the absence of Mr. Basil Horsfall, who was suddenly called east on important business.

Miss Irene Young, daughter of Mr. and Mrs. Jas. Young of Macleod was one of the performers at the Community Concert held in the Knox Church, Lethbridge on Tuesday of this week. Miss Young's pianoforte solo, "Polonaise in A" was well received and favorably commented upon.

It will be of interest to all those who are watching the progress of Miss Isabelle Burnada's musical career to learn that at her first London (England) recital, on Friday last, she was recalled 12 times. The cable received giving this information also stated that the singer is to be presented at court on May 9.

H. V. Clarke and Mrs. Clarke left Sunday by automobile for Prince Edward Island. They expect to be gone about three months. The Macleod Photo Studio is under the management of C. Leonard Hall of Vancouver B. C. Mr. Hall was formerly with The Regina Supply Co. of Regina, Sask., and was general manager of Vancouver Photo Supplies for a number of years. Patrons of the Macleod Photo Studio may be assured of a continuance of the service and quality for which this store is noted. Mr. Hall is permanently connected with the Macleod Photo Studio and intends moving his

Remember Mother's Day and send her an enduring remembrance — a portrait of yourself. We feel safe in saying that this should be the national manner of remembering her.

McCormick CANCELS ALL WESTERN DATES

Macleod people who were planning to journey to Calgary for the John McCormick concert on April 28 will be disappointed to learn that the Western Canada engagements of the great concert tenor have all been cancelled due to a severe attack of laryngitis. Mr. McCormick has expressed the hope that he will be able to open his autumn season with a concert in Calgary.

D. F. McSweeney, the tenor's manager, advised the Calgary promoters of the concert of the cancellation in the following wire:

Vancouver, B.C., April 19.
Regret very much I must ask you to postpone John McCormick engagement until next October. We should like to open next season in your territory, when Calgary may hear John McCormick at his best. The attack of laryngitis, which developed at Seattle, has been rather stubborn, and while he is much improved, Dr. Colin Graham, Vancouver, advises him against singing just now in Vancouver, Edmonton, Calgary or Winnipeg. Please announce postponement immediately.

D. F. McSweeney.

More than four thousand tickets have been sold up to date for the McCormick recital. Arrangements are now under way to refund their purchase money to the ticket-holders.

Canada Asks Your help to Save the Forests from fire.

Twenty fourth street was the scene of two auto collisions on Sunday last. Cars driven by A. Clarke and P. Barnaby locked wheels between 2nd and 3rd Avenues, the Chevrolet driven by Clarke being badly smashed up. A Ford coupe owned by S. Heap and a car driven by J. Clarke of Monarch collided Sunday evening, but no serious damage resulted. None of the occupants of the four cars suffered injury in either accident.

where they throw their matches and live ashes.

Fire destroys the green standing timber, leaving dead trees to dry out as kindling for the second and third fires which generally follow. Thus young growth doesn't get a chance. Human carelessness accounts for most fires in the woods. Only carefulness will save Canada's remaining forests.

The modern girl, I read, is allowed too much latitude in her dress. Still, it compensates for the lack of longitude.

REACH & COMPANY, Ltd.

DEPARTMENTAL STORE, DRY GOODS, CLOTHING, BOOTS AND SHOES, GREAT WEST GARMENT AND OVERALL COMPANY'S MANUFACTURES, GROCERIES, VEGETABLES AND CONFECTIONARY

We have a large Gas Heater, Gurney make No. 18 N.K., cost \$30.00, it is now offered at half price for \$15.00, it is suitable for large offices or schools.

HOLE PROOF HOSIERY

Just in, a fresh list of new shades. These makes need no recommendation, for durability they have no rival.

We also have a fresh stock of the celebrated Murray Make of Boots and Shoes for men and women. If you carefully scrutinize our prices with goods bought from large towns, you will see our charges are far below them. We speak of first class goods that are not handled by Departmental Stores, our goods are First Class and the makes guaranteed and made to wear. The shoes are stylish and comfortable, all lines that are not popular with the public are sold over the bargain counter.

A few Eiderdown Comforters and Rayon Silk Bedspreads left. We have the best makes in Silk Wear. The Sunfield's silk underwear is positively the best on the Canadian market. Its popularity is jumping up by leaps and bounds, and our prices are shared with you.

STATISTICAL NOTE

If all the people who were staying in boarding houses for the recent holidays were placed end to end they would reach out for a second helping.

A pile of water costs nothing in Canada as a rule but the trouble of dipping it up. Put out your camp fire and help save Canada's diminishing forests. Twelve million dollars worth of timber is being burnt up every year simply for lack of a few pails of water at the proper time.

Fire destroys the green standing timber, leaving dead trees to dry out as kindling for the second and third fires which generally follow. Thus young growth doesn't get a chance. Human carelessness accounts for most fires in the woods. Only carefulness will save Canada's remaining forests.
